

**Regulations 12th Holland International Image Circuit 2020
(International Single Country Circuit)
President: Mariska Lansbergen, info@hollandcircuit.nl**

1 General

The Circuit consist of 5 salons and entry is open to all photographers, worldwide. It will be conducted under the approved rules of FIAP (Federation Internationale de L'Art Photographique), PSA (Photographic Society of America), RPS (Royal Photographic Society), GPU (Global Photographic Union, before UPI) and Fotobond. All acceptances will count for FIAP, PSA, RPS, and GPU distinctions and for inclusion in PSA Star Rating and "Who's Who".

The mention that by the sole act of submitting his/her images or files to a salon under FIAP Patronage, the entrant accepts without exception and with no objection the following terms: - that the submitted images can be investigated by FIAP to establish if these obey to FIAP regulations and definitions even if the entrant is not a member of FIAP, - that FIAP will use any means at its disposal for this undertaking, - that any refusal to cooperate with FIAP or any refusal to submit the original files as captured by the camera, or failure to provide sufficient evidence, will be sanctioned by FIAP, - that in case of sanctions following the non compliance with FIAP regulations, the name of the entrant will be released in any form useful to inform the breaches of the rules. As mentioned in II.2) it is recommended to leave the EXIF data in the submitted files intact in order to ease eventual investigations.

If at any time, it is determined in the reasonable discretion of the exhibition organizer or the judges before, during, or after the judging of an exhibition that an entrant has submitted entries where one or more images may fail to comply with these Conditions of Entry, including the stated definitions, the exhibition organizers reserve the right to delete the entry from the exhibition and void any or all acceptances or awards in connection with the exhibition. Fees may be forfeited or refunded in these circumstances. The entrant acknowledges that the decision of the exhibition organizers or the judges is final.

In order to ensure that images comply with the Conditions of Entry and definitions, the exhibition organizers may carry out reasonable measures to verify that:

- a) the images are the original work of the entrant and
- b) the images comply with the rules and definitions as set out in these Conditions of Entry.

These steps include, but are not limited to, questioning any entrant, requiring the submission of RAW files or other digital files representing the original capture of the submitted image(s), confronting the entrant with evidence that one or more submitted images fails to comply with the Conditions of Entry (also known as Entry Rules), and offering the entrant a reasonable opportunity to provide counter evidence to refute the exhibition organizer's evidence by a set deadline. Such entries that are not cleared or are still questionable after the entrant has presented evidence may be considered in breach of these Conditions of Entry, and declined. Such entries may be referred to PSA for further investigation of possible ethics violations.

PSA retains the right to investigate in any way all complaints/suspicious of breaches of entry conditions, impose sanctions if deemed necessary, void the acceptances of any image found to violate the PSA rules, include the entrant's name on the list of sanctions provided to Exhibitions, and share such investigations with FIAP. Entrants automatically agree to these terms by the act of entering the Exhibition and agree to cooperate with any investigation.

2 Sections

The Circuit has one division: Projected Images.
There are three sections:

a. General, (PID-color-open)

b. Monochrome (PID-Monochrome-Open)

Definition Monochrome FIAP

A black and white work fitting from the very dark grey (black) to the very clear grey (white) is a monochrome work with the various shades of grey. A black and white work toned entirely in a single colour will remain a monochrome work able to stand in the black and white category; such a work can be reproduced in black and white in the catalogue of a salon under FIAP Patronage. On the other hand a black and white work modified by a partial toning or by the addition of one colour becomes a colour work (polychrome) to stand in the colour category; such a work requires colour reproduction in the catalogue of a salon under FIAP Patronage.

Definition Monochrome PSA:

A monochrome image is defined as having varying shades of no more than one color (various shades of that color from very light to very dark) but it may be any single color. Multi-toned images (various shades of two or more colors) and greyscale images with added an accent color are not acceptable.

Techniques that add, relocate, replace or remove any element of the original image, except by cropping, are not permitted.
